PART I - ORGANIZATIONAL BACKGROUND

Origin and Functions

1. The Operations Coordinating Board (OCB) was established by Executive Order 10483 of September 3, 1953, based largely on the June 30 recommendations of the President's Committee on International Information Activities. Its members are the Under Secretary of State (Chairman), the Deputy Secretary of Defense, the Director of Foreign Operations Administration, the Director of Central Intelligence and a Presidential representative. As contemplated in the Executive Order, the Director of the U. S. Information Agency also participates in the work of the Board.

2. On September 17, the OCB held its first meeting. The Executive Order provided for the abolition of the Psychological Strategy Board (PSB) within sixty days. PSB was administratively terminated on October 31.

3. The OCB is concerned with the coordinated implementation of national security policies by the Executive agencies. The establishing order specifies that in accordance with national security policies and upon the direction of the President, the Board will advise with the agencies responsible for executing such policies, regarding detailed operational planning, coordination and timely execution, in a manner designed to contribute fully to the attainment of national security objectives and the desired climate of opinion. OCB may also initiate new action proposals within national security policies, as situations permit; and it must report to the NSC on its activities.

Transition

4. Through September and October, the OCB and its staff developed its pattern of work. The Board approved a new administrative support agreement on September 30, in which the participating agencies undertook to provide the funds, personnel and services needed to carry out the Executive Order. Under this agreement, the Department of State is responsible for the administrative support of the Board and its Staff. By the end of December, the staff numbered 48 persons, compared with 72 for PSB on July 1. OCB security practices were adapted to NSC requirements. By December 31, 12 coordination assignments had been made by NSC to OCB, OCB had initiated 9 new projects, and 15 PSB programs were still being coordinated by OCB.

TOP SECRET

OCB Procedures

5. Coordination is normally effected through a working group for each project, chaired by the agency of major operational responsibility, with the participation of an OCB Staff Representative. These groups ensure that agency roles under NSC policies are clearly understood and executed in accordance with the terms of Executive Order 10483, summarized above in paragraph 3. In their coordinating activities, these groups develop new proposals for action, for referral to the agencies concerned, the Board or the Board Assistants. The working groups may also make recommendations regarding the need for revision of national policies, for submission through Board channels to the NSC.

PART III - OCB PROJECTS

1. Christmas East - (OCB Mtgs. 9/15/53, 10/21/53, 11/4/53, 12/2/53)

The original plan proposed a balloon delivery of food and other supplies to the peoples of the European Satellites. OCB, in the light of field advice and staff studies, rejected this plan and instead the Governments of Czechoslovakia, Hungary, Poland, and Rumania were requested to permit entry of duty-free food packages sponsored by CARE. Upon receipt of the refusals of the governments concerned, appropriate publicity was given the U. S. request and Satellite refusals.

2. Christmas West - (OCB Mtgs. 9/17 and 9/23/53)

Food was distributed to the needy of Western Europe as a Christmas gift of the American people. Operation consisted of the distribution of bulk and package food by government-to-government gift, by U. S. Armed Forces Christmas parties for indigenous personnel, and by non-governmental voluntary relief agencies in an amount not to exceed \$19 million. Distribution was made in Austria, Bolivia, Brazil, Chile, Ecuador, Finland, France, Germany (West), Greece, Haiti, Israel, Italy, Lebanon, Netherlands, Norway, Panama, Peru, Spain, UK, and Yugoslavia during Christmas week. The operation was completed during the first week in January.

3. National Operations Plan to Exploit Communist Bacteriological Warfare Hoax, Mistreatment of Prisoners of War, and other Atrocities Perpetrated by Communist Forces during the Korean War - (OCB Mtgs. 9/23 and 9/30/53.)

This self-explanatory proposal was developed to give the lie, once and for all, to several long-range communist propaganda maneuvers. It was closely integrated into the U. S. Delegation's action at the 8th UN General Assembly. The OCB agencies provided intelligence and information program support for the U. S. Delegation to the UN, and was especially active in the presentations of the bacteriological warfare hoax and atrocities issues in the UN. The OCB subsequently developed program support to handle the propaganda exploitation of the non-repatriated prisoners of war in Korea.

4. Coordinated Information Program for the Far East - (PSB D-44, Formosa) (OCB Mtgs. 11/4 and 11/11/53).

In order to achieve a more effective and more efficient utilization of information and propaganda personnel and facilities available in the Far East, the OCB undertook an examination of the existing situation with a view toward recommending improvements. Mr. Theodore Streibert, Director of USIA, made a personal inspection tour of the area. In light of his report the working group suggested certain actions to the operating agencies to improve the overall operation of the information program in the Far East.

5. Winter of Discontent - (OCB Mtgs. 11/18 and 11/25; Assts. Mtgs. 12/18 and 12/27/53.)

The OCB undertook a preliminary analysis of the targets of opportunity in relationship to food and other shortages within the communist orbit during the winter of 1953-54. The European aspects were referred to the NSC 174 working group and the Chinese aspects were referred to the NSC 146/2 working group. No opportunities for food shipments had developed as of December 31.

6. Effectiveness of the Escapee Program - (NSC 86/1 - OCB Mtg. 12/2/53)

OCB undertook to examine the adequacy of the operating and financial base for the conduct of USEP

activities and the effectiveness of the Escapee Program in meeting the objectives of NSC 86/1; the operational requirements of the interested agencies; and the extent to which the agencies are using and exploiting this program. A consolidated report is being developed.

7. President's UN Speech on Atomic Energy - (OCB Mtg. 12/9/53)

OCB undertook action to coordinate and increase the follow-up exploitation of the President's speech for peaceful utilization of atomic energy. Checklists of agency actions are being drafted into a national operational plan.

8. Iceland - (OCB Mtg. 12/16/53)

Increased communist activities and problems relating to the American military program in Iceland led the OCB to foster a renewed emphasis on increasing American prestige in Iceland. The OCB undertook the development of a coordinated action program to accomplish political effects and to improve the climate of opinion.

9. International Communications of U. S. Economic Policy - (Bd. Assts. Mtg. 12/30/53)

To counteract foreign and especially European fears of a U. S. recession, the OCB assisted in the formulation of a concentrated information program. As a major element in this program, steps were planned to insure the most effective overseas distribution of the President's Economic Report.
